

MANAGEMENT SYSTEMS CERTIFICATION (MSC) WING

Management Systems Certification (MSC) Wing of BSTI operates System Certification against management system standards all over the country. BSTI has been operating this certification scheme since 2009. This scheme consists the scope of ISO 9001(Quality Management System), ISO 14001 (Environmental Management System), ISO 22000 (Food Safety Management System), HACCP (Hazard Analysis Critical Control Points) and Good Manufacturing Practice (GMP) certification to the Industry, Business and Service Organization.

In Bangladesh there are number of private certification agencies working for issuing systems certification. But BSTI is the only Govt. organization awarding Management Systems Certification in the country. In conscience of domestic Industry, Business and Service organization achieves conformity certificate against ISO (International Organization for Standardization) and CAC (Codex Alimentarius Commission) standards in low cost from BSTI other than private and foreign certification organization.

Formerly the Management Systems Certification of BSTI got accreditation from Norwegian Accreditation Authority in 2010 and continued it up to 2014. After that The Bangladesh Accreditation Board (BAB) has awarded Accreditation on Management Systems Certification (MSC) against ISO/IEC 17021 Standards in 2015 according to the Norms of International Accreditation Forum (IAF). Henceforth, the Accreditation Certificate is renewed by BAB in due procedure.

In the meantime, BSTI has certified 115 Management Systems Certificates on Quality Management Systems (based on ISO 9001:2015), Environmental Management Systems (based on ISO 14001:2015), Food Safety Management Systems (based on ISO 22000:2018) and Hazard Analysis Critical Control Points (based on CXC-1: 1969, Rev. in 2022) mentioned in the following table:
